

Sarah Van Meter Bio

Sarah Van Meter is a Safety Engineering Manager for Bayer at their St. Louis locations since 2013. Sarah has participated in Toastmasters since 2017 and has been actively involved by completing her competent leader and competent communicator in legacy Toastmaster as well as completing her Innovative Planning Pathways. Since 2018, she has been active in her club by participating in the following officer roles: President of Noontime Toastmasters (current role), Immediate Past President, Vice President of Education, and Vice President of Membership.

Toastmaster has had a positive impact in both Sarah's personal and professional life. If you put in the time and effort, you will see results! I look forward to working with Area 18 and within District 8!
