

Darlene Willman Bio

Darlene joined the Cave Springs Toastmaster's club in June 2019, just in time for new officer elections. No one had signed up to be the club secretary, so she raised her hand and said, "if I'm going to be a member of Toastmasters, I'm all in, sign me up!" The following year she became the Vice President of Public Relations and is in her second year in the same position. She completed the Innovative Planning Pathway in 2020 and served as a mentor on the D8 Pathways Idea Sharing training to help others to complete their IP Pathway. She was a part of the Level Up TLI committee and helped with marketing and communications. Currently she is working through her second Pathway for Presentation Mastery and ultimately working towards her Distinguished Toastmaster designation.

Toastmasters has become an integral part of her life. Every Wednesday at 8 am she is attending the Cave Springs Toastmaster's club either on Zoom or in person. She participates every week either as a speaker or in a role that needs to be filled to support the club. At every opportunity, she is promoting Toastmasters and inviting people to attend. She hopes to bring new ideas, support, and enthusiasm to the other clubs as the Area 22 Director.

Darlene has been in business for herself for 19 years and is a published author, certified coach, personality consultant, and speaker for hire! She hosts workshops and training programs both in person and virtually. She is a Fascinate™ Certified Advisor and can help you and your team identify what makes you captivating so you can easily engage with your clients and audience.

She has been happily married to Mr. Incredible for 22 years and is extremely proud of her two children for continuing their education in college and pursuing their own careers. Darlene loves to travel and collect beaches from all over the world. She and her husband love to go on cruises and hope to get onboard a ship in 2021.
