

## **Stacey Costin Bio**

Stacey joined Toastmasters as a charter member of Techmasters in 2018 “just to give it a try,” and has been an active member ever since. Now currently a member of Centene Speaks, she has completed her first Pathway and has started on her second already with her DTM hopefully within reach one day soon.

Thanks to an outstanding leader and mentor, she has participated in two Youth Leadership Programs and has taken on several roles in her time as a Toastmaster. Her favorite part of membership is helping new members find their footing and introducing them to all things Pathway related. She has served as President, Vice President of Education, and Secretary, as well as Area Director.

Outside of Toastmasters she is President of Pi Gamma, a local chapter of the Philanthropical Sorority, Delta Theta Tau and works in the Healthcare industry. She volunteers at Junior Achievement and fundraises for numerous groups. She enjoys game nights with family and friends, movies, reading, gardening, taking road trips with her husband, spending time at the lake, and loves being a dog mom to the best pups ever.

Her goal for this Toastmaster year is to build leadership in others by encouraging and developing strong thinkers and doers and helping them stretch and build their skills.
